Profile

Creative and passionate visual storyteller specializing in animation, motion design, and character-driven narratives. Skilled in digital illustration, concept development, and animation fundamentals using Krita. Currently developing an animated short film, Mars West Story. Dedicated to crafting imaginative worlds and expressive motion visuals that connect emotionally with audiences.

Work Experience

Freelance Illustrator & Animator (Self-Initiated Projects)

Jan 2024 – Present

- Created expressive digital illustrations and short animations using Krita.
- Developed original characters and story concepts focused on mood and motion.
- Practiced frame-by-frame animation, timing, and movement principles.
- Shared artworks and creative progress online to build consistency and audience engagement.

Creative Member – Student Council

Ashoka Institute of Technology and Management
July 2023 – Present

- Designed visual materials, digital posters, and event graphics for campus activities.
- Collaborated with teammates on visual storytelling and campaign ideas.
- Enhanced teamwork, creative communication, and time management through hands-on design work.

Projects

- Mars West Story (Animated Short Film – In Development)**
 - Developing an original animated short centered on emotion-driven storytelling and character performance.
 - Responsible for concept development, character design, and frame-by-frame animation using Krita.
 - Exploring visual rhythm, narrative pacing, and expressive motion techniques to enhance storytelling impact.
